Anderson provided the Trustees with a list of projects and workload for each of the construction projects.

Anderson discussed upcoming letters to the residents of Center Lake.

Anderson provided and update to the sewer venting issues for the Americinn and Arrowwood Resort. The Sanitary District added more flow to the sewer line. Several of the lift stations right now smell, due to the lack of flow in areas of the sewer system. With the new construction project, the District added more wastewater to the sewer system. Others in the area have not experienced venting issues at their facilities that were on the old sewer line. It was suggested that maybe they could install a check valve or trap.

Camozzi asked about adding material to the intersection and Nature Center Road to get us by until the asphalt plant opens for the season. Anderson said he would get a contractor on it this week.

The meeting was adjourned by Motion (Clary/Boettcher).
