REGULAR MEETING OF THE BOARD OF TRUSTEES OF
THE IOWA GREAT LAKES SANITARY DISTRICT
June 25, 2024, 3:00 P.M.
MILFORD CITY HALL BOARD ROOM, MILFORD, IOWA

President Hoppe called the meeting to order at 3:00 p.m. Trustees; Andres, Kuhlman, and Camozzi were present. Others present were Josh Pope and Steve Anderson.

The were no union negotiations today due to the flooding that was occurring.

Anderson gave an update on current operations, due to the flooding that was occurring around the Iowa Great Lakes. Hessco Barriers from Iowa Emergency Management have been used at Seeman' Point, Doc's Cove, Breezy Heights, and Eagle Point lift stations. Plastic barriers were used at East Okoboji Beach. The plant flows were exceeding 12,000 gallons per minute into the plant. There was enough hydraulic pressure on the plant, that the biological part of the treatment system started to wash out of the plant. At that point additional measures were taken to protect the treatment operations. A 6-inch pump from the State of Iowa was used to pull excess water out of the system at the plant and discharge it into the water way at the plant, going into Milford Creek. The South Milford Lift Station was shut off to divert water to Milford Creek. Customers were requested to reduce water usage to help the sewer system get caught up.

Trustees approved the Master Agreement with HR Green for Fiscal Year 2025 (Camozzi/Kuhlman); all ayes.

Trustees tabled discussion on cost of living until the union negotiations have started. (Kuhlman/Andres); all ayes.

Trustees approved the Fisal Year 2025 Operations Budget. (Camozzi/Andres); all ayes.

Anderson discussed all the proposed developments in the Iowa Great Lakes area.

The meeting was adjourned by Motion. (Kuhlman/Andres).
